THE CULTURE OF TOTAL BEAUTY

METHODE CLARIFIANTE

*The combination of life  
and beauty,  
bios and aesthetics.*

*The combination of the latest  
research and natural  
ingredients. Individual for  
every kind of skin and every  
kind of hair.*

*That's our task.*

## METHODE CLARIFIANTE

Méthode Clarifiante, the skin-clarifying care range for oily, blemished skin, normalises the skin functions.

Large-pored, oily, shiny skin... sluggish, blemished skin... inflammation and blemishes. Triggered by stress, hormone changes, an imbalanced diet or a hereditary predisposition. This isn't just a problem that affects teenagers.

The psychological factor also plays a key role because looking in the mirror makes everything visible. Special care that targets the different skin problems is important to normalise the skin functions and combat the occurrence of skin problems ahead of time.

*My skin is clean and clear again!*

# METHODE CLARIFIANTE

Skin-clarifying yet gentle. The cleansing products target skin problems, thoroughly cleanse right down to the pores and are still kind to the skin.

## CLAIR DE TEINT CLARIFIANT

The intensively cleansing gel reduces sebum production by mildly cleansing the skin. Thoroughly cleanses the skin right down to the pores without dehydration.

*Application:* In the morning and evening, lather with water in the palms and apply to face, neck and décolleté. Then rinse with warm water.

## VISALIX CLARIFIANT

The skin-clarifying toner refines the rough skin relief, prevents inflammation and calms the skin.

*Application:* After cleansing with cleansing gel, apply the toner daily to the face with a cotton pad.

## LOTION DESINCRUSTANTE

The deep-cleansing lotion with salicylic acid for oily skin and blocked pores. Thoroughly removes excess sebum and softens stubborn blackheads. The complexion becomes clean and clearer.

*Application:*

For very oily skin: apply *Lotion Desincrustante* daily to a cotton pad and rub it on to the affected parts of the face.

For blocked pores: 2–3 times a week, leave a soaked cotton pad on the face for about 5–10 minutes as a compress.

After the application, wash off with *Clair de Teint Clarifiant*.

Deep pore cleansing of the skin. Thoroughly and yet very gently.

*Intensive skin cleansing*

# METHODE CLARIFIANTE

Moisturising, anti-inflammatory, calming... face care for oily and / or blemished skin

## PURETE CLARIFIANTE

Oily, blemished skin needs calming, regenerative and moisture-stabilising care substances. Natural plant extracts calm the skin and reduce inflammation. A skin-identical radical trap combats the negative effects of free radicals and thus protects against oxidative stress. Algae extracts reduce sebum production, and skin-identical NMFs support the skin's metabolism, and stabilise the moisture in the skin.

*Application:* In the morning and evening, apply after cleansing and toning the face.

Moisture and relaxation  
for blemished skin.  
Reduced sebum production  
in case of oily skin.

*Natural plant extracts  
normalise the skin functions*

# METHODE CLARIFIANTE

Pimples, inflammation, uneven skin, oily shine. Your SOS care specially for your individual skin problem.

## LIKOPAN GEL

The clarifying hydrogel covers blemished areas of skin like an invisible film. Mangosteen extract intensively clarifies and calms the skin. The natural gel base of soy lecithin improves the penetration of the active ingredients deep within the skin. Inflammation, blemishes and pustules are reduced and heal faster. Can also be used as preventative care.

*Application:* After cleansing and toning the face, apply the gel to the affected areas of skin and allow to dry. Repeat application until the blemish has disappeared.

## MASQUE PEELING

The cream-gel mask with natural exfoliating particles cleanses right down to the pores, and can be used for all skin types thanks to its gentle texture and the small rounded off exfoliating particles.

*Application:* Using circular motions, distribute with the fingertips on to the previously cleansed face. Massage for 1–2 minutes. Remove with warm water.

The quick helps in case of clearly visible skin problems.

## MASQUE CLARIFIANT

The skin-clarifying cleansing mask absorbs excess sebum secretions on the skin. Camomile extract calms and reduces skin irritation. Jojoba wax is rich in vitamins and is very easily incorporated in the skin's barrier layer. It protects against negative environmental influences.

*Application:* Apply a 1–2 mm thick layer on to previously cleansed skin. After 10–15 minutes, remove with a cosmetic sponge and warm water. Apply the mask every second or third day.

*The SOS care for blemished, oily skin*

LA BIOSTHETIQUE

# *The Culture of Total Beauty*

*The ultimate beauty care.*

*With products that are developed by scientists based on state-of-the-art research and with proven efficacy and tolerance in clinical tests.*
